All content within this document including but not limited to the pattern and instructions is copyrighted. Electronic reproduction and/or distribution is prohibited by law. This pattern is intended for the use of the individual purchaser. Finished products created from this pattern by an individual at home can be sold. Mass production is expressly prohibited. For more information on sew-to-sell guidelines, see www.fishsticksdesigns.com/sewnforyou.html.

Fabrics:

Cotton knits and cotton blend knits

Yardage (based on 60" wide knit fabrics)

For all sizes: ribbing (cotton/lycra or cotton/spandex) or interlock for neckline and trim (Note: Ribbing or interlock are the best choices for the neckline and trim. Jerseys will not have enough stretch, and 100% cotton ribbed knits will lose their shape and sag after being pulled on.)

For sizes 12 months to 2T: ½ yard of print or solid interlock, ribbed knit or jersey for body of tank

For sizes 3T to 7/8: ¾ yard of print or solid interlock, ribbed knit or jersey for body of tank

For size 12 to 14: 1 yard of print or solid interlock, ribbed knit or jersey for body of tank

Approximate Finished Measurements:

Chest: Measured from underarm seam to opposite underarm seam

Length: Measured from the top of the neckband to the hem

12 Months Chest: 10" Length: 11"

18 Months Chest: 10 ¼" Length: 12 ½"

24 Months/2T Chest: 10 ½" Length: 13 ½"

3T Chest: 11" Length: 14 ½"

4T Chest: 11 ½" Length: 15 ½"

5 Chest: 12" Length: 16 ½"

6 Chest: 13" Length: 18"

8 Chest: 13 ¼" Length: 19"

10 Chest: 14 ½" Length: 20"

12 Chest: 15 ½" Length: 21"

14 Chest: 16 ½" Length: 22"

Except where otherwise noted, ½” seam allowance allowed for sewing, ¼” cutting allowance allowed for serging.

Note: The stretch in knit fabrics makes it easy to get a custom fit perfect for your child by combining cut lines. For example, for slimmer children, you may get a nicer fit by using a smaller pattern size through the body than the ready-to-wear size you normally purchase and cutting the length of the dress and sleeves to the next larger size.

Turn to page 6 for pattern printing instructions.

SEWING INSTRUCTIONS

Prepare: Begin by cutting out your pattern pieces.

Hem: When sewing knit tops, I prefer to hem before sewing or serging. You can choose to hem now or hem as your final step. When hemming knits, I like to use spray starch and iron the hem before sewing. The hem allowance is one inch. You can serge the edge and fold up $\frac{3}{4}$ " or fold over $\frac{1}{4}$ " and then $\frac{3}{4}$ ", iron and hem the bottom edge of both front and back.

Pin front of shirt to back of shirt right sides facing at the shoulders and sew or serge using a $\frac{1}{2}$ " seam allowance or $\frac{1}{4}$ " cutting allowance for 4-thread serging.

Fold each arm trim piece in half and match up long edges. Press. With right sides of both front and back body pieces facing up, pin trim along shoulder curve with all raw edges matched up. Line up centers first, then edges and stretch trim to ease into place. Pin evenly.

Stretch trim slightly to lie flat against arm opening while you sew or serge it on using a 3/8" seam allowance or 1/8" cutting allowance for 4-thread serging.

Topstitch arm trim 1/8" from edge.

Fold neck band in half the long way with right sides facing and sew or serge the short edge. Flip in half with wrong sides together, matching up the raw edges. With top inside out, pin band inside neckline, lining up seam with the middle of the back of neck. Stitch the neckband on using a 3/8" seam allowance or cutting off 1/8"

while serging. Stretch neckband slightly as you go to fit into neckline.

Turn top right side out and top-stitch around the neckband approximately 1/8" from the edge.

Flip body pieces so that right sides are facing and line up edges. Pin, lining up bottom edge and underarm seam.

Sew or serge using a 1/2" seam allowance or 1/4" cutting allowance for 4-thread serging from the bottom hem to the underarm. Backstitch at each end or tie off serging.

Enjoy your finished top!

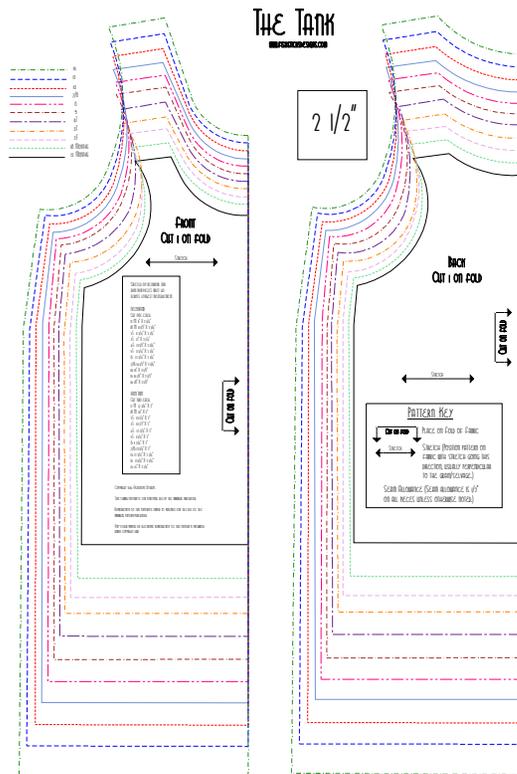

Pattern Printing Instructions

Before printing the pattern pieces, check your printing options to be sure that you're printing "actual size" or "100 percent" and the "auto portrait/landscape" option is chosen under orientation. Be sure to measure the 2 1/2" block that you will find on the pattern to check that you've printed correctly.

Each page is marked with a row number and a column number to help with lining up the pages. All pages will overlap 1" on each side. For picture instructions on assembling Fishsticks Designs pdf patterns, visit here: <http://fishsticksdesigns.com/blog/how-to-use-a-pdf-pattern/>.

Printing Options

All sizes nested: pages 7 through 14.

Individual sizes:

12 months – pages 15 to 18

2T – pages 23 to 26

4T – pages 31 to 34

6 – pages 41 to 46

10 – pages 55 to 62

14 – pages 71 to 78

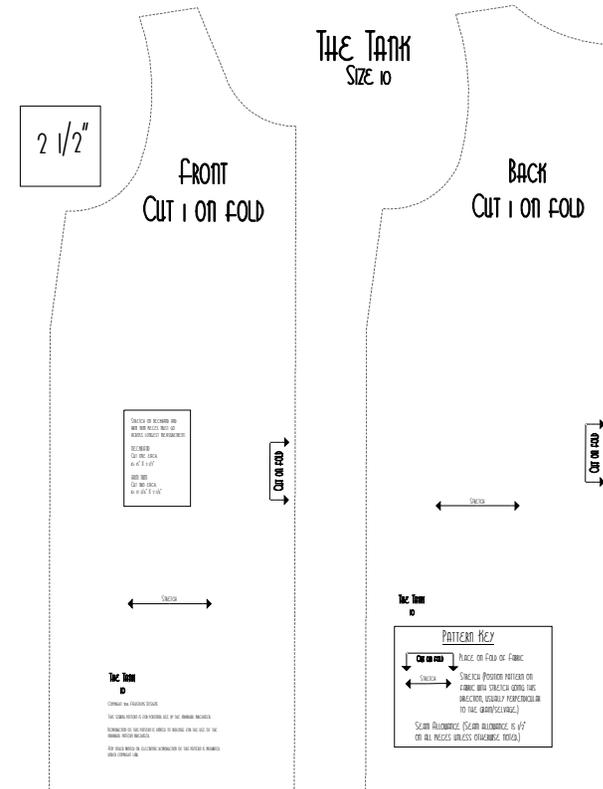

18 months – pages 19 to 22

3T – pages 27 to 30

5T – pages 35 to 40

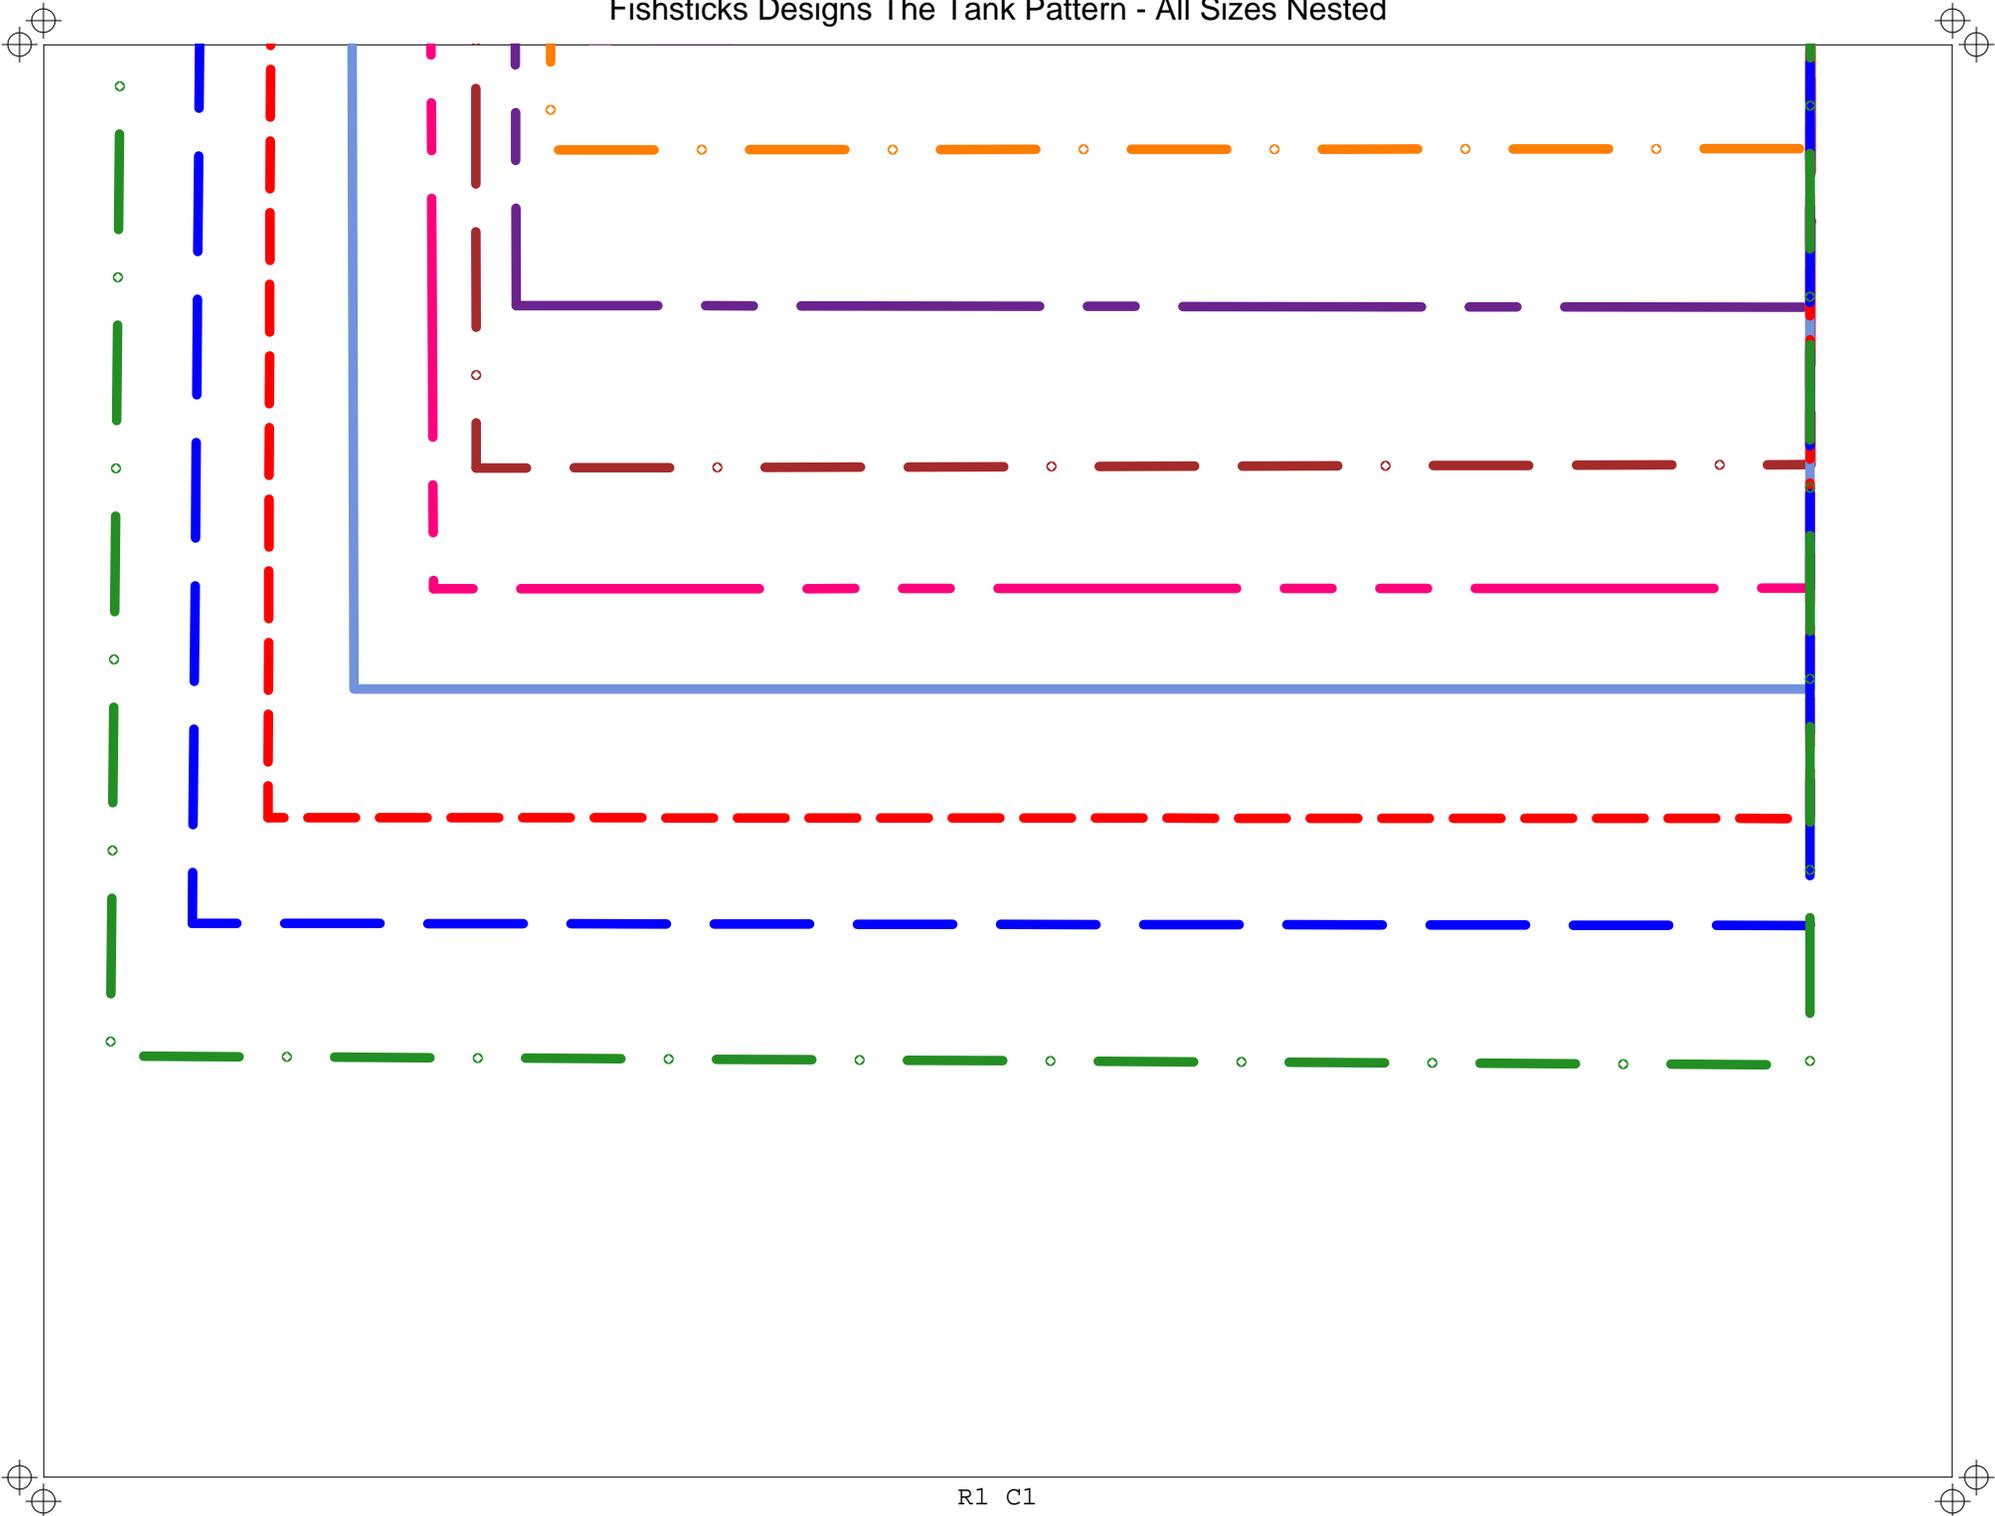

7/8 – pages 47 to 54

12 – pages 63 to 70

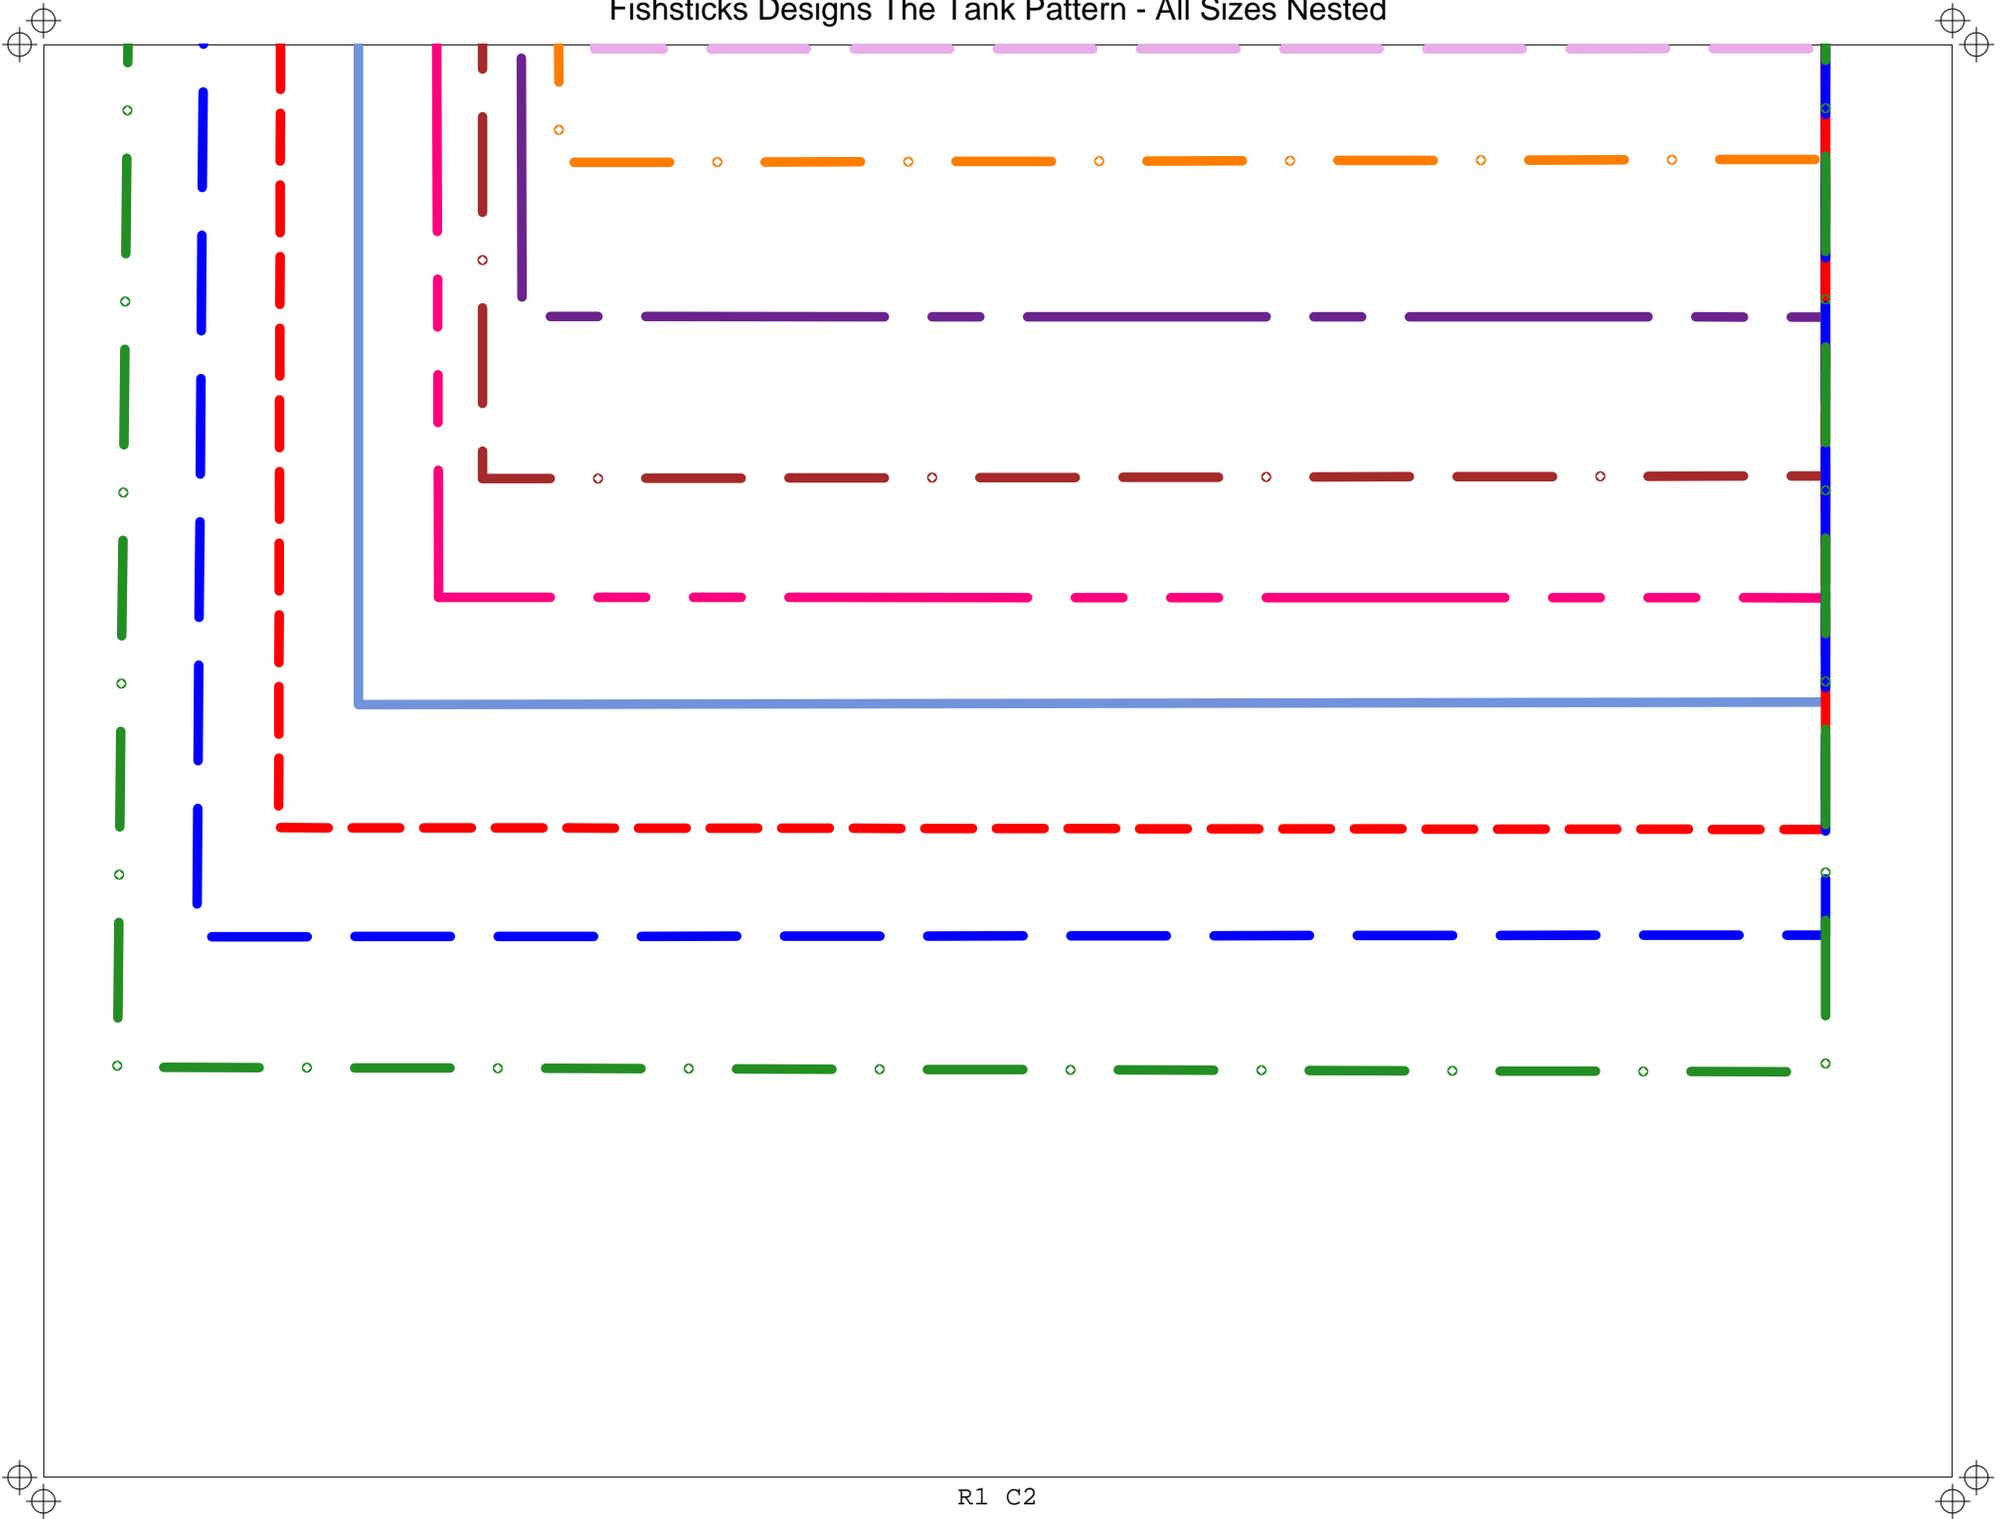

Finally, you can take the full-size pattern on page 79 to a print shop (Staples, Fedex-Kinkos, Office Depot or a local blueprint printer) and have it printed full-size. This pattern will print as a 24 x 36 black and white, blueprint or engineering print, and the printing U. S. printing cost should be in the range of \$4 to \$6. Be careful to ask the printer to print the file "exact size" and measure the 2 1/2" box before leaving the store.
